

# INFRASTRUCTURE AS A SERVICE

SLICEDTECH

## IaaS SERVICES TAILORED TO MEET BUSINESS NEEDS

Consume computing, storage and network (WAN, LAN, wireless) resources "as a Service", across Public, Government Community, Private and Hybrid Cloud. Sliced Tech owns and operates clouds in Canberra, Brisbane, Sydney and Melbourne and delivers IaaS on customer sites across Australia.

## EXPERIENCE THE BENEFITS OF ASD CERTIFIED GATEWAYS AND CLOUDS

Sliced Tech operates multiple Australian Signals Directorate (ASD) Certified Gateways, Government Community and Public Clouds. Customers can choose different levels of security classification, including OFFICIAL and PROTECTED cloud offerings.

## IaaS - BUSINESS BENEFITS

### PREDICTABLE COSTS

Have the ability to manage costs and have a clear understanding of financial commitments in advance. There are no hidden surprises.

### SCALABLE & FLEXIBLE

Enjoy the ability to scale up and down in response to business requirements, providing added flexibility and agility.

### FASTER TIME TO MARKET

IaaS provides the capability to rapidly deploy new infrastructure over traditional methodologies.

### IMPROVED DISASTER RECOVERY

If disaster strikes, IaaS provides access to infrastructure, providing a quick recovery with effective control over the environment.

## IaaS SUMMARY

Multi or Single  
Tenanted options

Virtual & Physical  
options

Per vCPU

Per GB of RAM

Per GB of Storage

WAN Termination

Self Service Portal &/or  
API Options

Self Service  
Monitoring

Managed  
Gateway

### IaaS AS A SECURE CAPABILITY

Sliced Tech can provide IaaS as a complete managed service, meeting Federal Government information security guidelines, allowing business to focus time and resources where they belong.

### REQUIRE A FLEXIBLE APPROACH?

Sliced Tech supports integrated multicloud solutions. Business has the choice of cloud providers to build and deliver a unified, secure and multi-tenant consolidation framework.

## CERTIFICATION - WHY IT MATTERS

### ASD CERTIFICATION

Sliced Tech is an ASD Certified Cloud Service Provider that has incorporated and automated the delivery of the Australian Federal Government's Information Security Manual (ISM) and Protective Security Policy Framework (PSPF) controls.

Core to our business is delivery of ASD certified Protected cloud, Unclassified DLM cloud and secure Gateway service at the Protected security classification along with fully integrated Managed Services. This certification provides independent assurance & significantly reduces the scope and cost of accreditation and certification activities for our customers.

### ISO/IEC 27001:2013

The information security management system (ISMS) ISO/IEC 27001, aligns Sliced Tech with best practices to manage an ISMS and reduce cyber risk.
